

HIJC - Unheated Container Insulating Jacket - data sheet

Area of application

The HIJC unheated container insulating jacket is ideal to reduce heat loss and fits on containers.

The combination with the Container Base Heater IBC/A is possible to accelerate the heating-up process.

The unheated insulating cover consists of waterproof polyurethane-coated polyester with flame-retardant coating.

Technical Data

max. temperature insulation	90 °C
Outer material	Flame retardant waterproof polyurethane-coated polyester
Insulation material	Fibreglass
Protection class	-
Cable length	-
Type of cable	-
Fastening	-
Control	-
Control range	-
Heating zones	-
Special sizes possible	yes

Container size	Power at 230 V	Length	Width	Part-No.
1000 liters	-	4400 mm	1000 mm	387R.009
